Virtual Programme Format:

The programme comprises nine half-day virtual sessions. This format is preferred for the following reasons:

- The programme recognises the difficulty of learners remaining focused on virtual instructor-led training for sustained periods of time.
- It provides an opportunity for the learners to assimilate the required knowledge in 'bite-size pieces', which is especially important for technical training programmes such as this one.
- The learners will have time to complete prescribed assessments and preparatory reading between sessions.
- It permits a 'Learning Journey' to be created, whereby the learners complete the programme ready to immediately sit for the real exam. This avoids the need for long periods to be spent preparing for the exam, following the training sessions.
